

# VIC JUBA COMMUNITY THEATRE Lloydminster, Alberta

On March 21st, 2002 the Grand Opening of the Vic Juba Community Theatre heralded the beginning of an exciting time for the performing arts in the Lloydminster Region. Allstar Show Industries was contracted to supply, install and commission a fully functional integrated Sound, Video, Communication and Hearing Assist System. The installed systems will provide the community with lasting quality for years to come.

This has been an ongoing relationship. The last phase was a speaker system upgrade in 2012.

## EQUIPMENT LIST: the original install from 2002
